Declaration of consent for image and sound recordings (photo, audio, video)

Dear participants,

Dissemination and reporting are two of the most crucial aspects of Erasmus+ projects. Throughout the project, we will be photographing and filming. In order to continue to implement and disseminate projects for and with children and young people, we document our projects and report on them in our public relations work. With your consent to the use of picture, audio and video recordings of yourself, you support us in continuing to create offers for children and young people in the future. Thank you very much for this!
